Most Excellent Sir, Distinguished East, and Companions of all ranks,

The stats above shows an increase of 2 Companions for the 2024-2025 year, due to field day but we have lost several due to demits and suspensions. I understand that some lessons were learned from the field day but the second part of the job is keeping them motivated! In the 2024 Grand Proceedings, there were 2 life members but now we are down to 0.

The office of GSE is probably the most technical of all Grand Chapter Offices. Organizational skills are required along with computer knowledge. Communication still seems to be a bit of a problem with the Scribes of certain Chapters, but is something that can be worked on and improved.

Most Excellent Sir, I move the adoption of this report and it is seconded by Rt Ex Comp Dan Fardoe.
